Developing Clinical Judgment

Study Guide for Medical-Surgical Nursing

Healthcare is evolving at an incredible pace and with it, the roles and responsibilities of the medical-surgical nurse. Ensure you are fully equipped to thrive and adapt in this ever-changing nursing environment with Ignatavicius, Workman, and Rebar's Medical-Surgical Nursing: Concepts for Interprofessional Collaborative Care, 9th Edition. This text not only covers all essential adult health knowledge, but also reinforces the application, conceptual thinking, and clinical judgment skills that today's nurses need to stay one step ahead in delivering exceptional patient care, no matter the environment. As with previous editions, you'll find a unique collaborative care approach to adult health nursing, a thorough integration of QSEN competencies, extensive NCLEX® Exam preparation, and a direct, reader-friendly tone throughout the text. This ninth edition incorporates two emerging and complementary trends -- the Core Competencies for Interprofessional Collaborative Practice and a more conceptual approach teaching and learning -- areas that will ground you in how to think like a nurse and how to apply the knowledge you gain from the text to clinical practice.

Master the essential medical-surgical nursing content you'll need for success on the Next-Generation NCLEX® Exam (NGN) and safe clinical practice! Medical-Surgical Nursing: Concepts for Interprofessional Collaborative Care, 10th Edition uses a conceptual approach to provide adult health knowledge and help you develop the clinical nursing judgment skills that today's medical-surgical nurses need to deliver safe, effective care. "Iggy" emphasizes three emerging trends in nursing - interprofessional collaborative care, concept-based learning, and clinical judgment and systems thinking - trends that will ground you in how to think like a nurse and how to apply your knowledge in the classroom, simulation laboratory, and clinical settings. A perennial bestseller, "Iggy" also features NCLEX Exam-style Challenge and Mastery questions to prepare you for success on the NGN! UNIQUE! Interprofessional collaborative approach to care views medical and nursing management through the lens of the nursing process and the NCSBN Clinical Judgment Model and aligns with the Interprofessional Education Collaborative (IPEC) Core Competencies for Interprofessional Collaborative Practice. Consistent use of interprofessional terminology promotes interprofessional collaboration through the use of a common healthcare language, instead of using isolated nursing-specific diagnostic language. UNIQUE! Enhanced conceptual approach to learning integrates nursing concepts and exemplars, providing a foundation in professional nursing concepts and health and illness concepts and showing their application in each chapter. Unparalleled emphasis on clinical reasoning and clinical judgment helps you develop these vital skills when applying concepts to clinical situations. UNIQUE! Direct, easy-to-read writing style features concise sentences and straightforward vocabulary. Emphasis on health promotion and community-based care reflects the reality that most adult health care takes place in environments outside of high-acuity (hospital) settings. NEW! Strengthened conceptual approach with data-driven Concept and Exemplar selections adds the concepts of pain, inflammation, and infection, and presents Exemplar disorders with a nursing-process format and depth to help prepare you for the Next-Generation NCLEX® Exam (NGN). NEW and UNIQUE! Enhanced focus on clinical judgment and systems thinking ensures alignment with the NCSBN Clinical Judgment Model and emphasizes the six cognitive skills you'll need for effective clinical judgment, for the NGN, and for safe clinical practice. NEW! Emphasis on need-to-know content provides a solid foundation for beginning nurse generalists, including only the most important patient problems for each medical condition, with streamlined chapters and concise coverage of nursing skills for preoperative and postoperative care. NEW! Updated content throughout reflects the latest national and international evidence-based guidelines and protocols. NEW! Improved learning resources on the companion Evolve website are thoroughly updated and closely integrated with the textbook. NEW! Interprofessional Collaboration boxes highlight how the nurse collaborates with other members of the healthcare team. NEW! Ethical/Legal Considerations boxes address dilemmas that medical-surgical nurses face related to technological changes and socioeconomic disparities. NEW! Increased emphasis on home care, health promotion, and community-based care reflects the ongoing shift of care from hospitals to the home environment. NEW! Updated illustrations include new anatomy and physiology images, procedure images, and disorder photos. NEW! Updated drug tables are designed for quick reference and the use of drug trade names is eliminated for better alignment with the NGN. NEW! Coverage of opioid misuse is updated to reflect the opioid crisis in the U.S. NEW! Content on personal safety and preparedness for mass casualty events has been expanded to equip you for the realities of healthcare today. NEW! Key terms and definitions at the beginning of each chapter give you advance familiarity with essential terminology. NEW! Revised Key Points align closely with Learning Outcomes and each includes a QSEN or Clinical Nursing Concept "tag" to maximize your study efficiency. NEW! Simplified and streamlined chapters make the book easier to use and information easier to find.

NurseThink Notes

About: To prepare you for real world practice, this book will highlight content areas most relevant to the bedside and why they must be mastered and understood. To help visualize the professional development that is needed as you transition to the responsibilities of the professional nurse, I use the metaphor of building a house; not a static structure, but a unique, vibrant "living" house that is a reflection of how you choose to build and add to it over time. Nursing is a living and vibrant practice that requires your personal involvement and engagement to promote the well-being of those you care for. The components of this "living" home include: Foundation: A house must have a firm and stable foundation. The ethical comportment or the art of nursing is this foundation for every nurse. Caring behaviors, nurse engagement, and professionalism in practice must be present or your nursing practice could be on shaky ground before it even begins! Walls: The applied sciences of nursing: pharmacology, fluid and electrolytes, and anatomy and physiology. I contextualize these sciences to the bedside so the relevance of mastering this content becomes apparent. Roof: Critical thinking and clinical reasoning, which is the thinking that is required by the nurse that completes the house and ties everything together. Skeletons in the closet: Every house has closets and some have a few skeletons in them! Incivility and men in nursing will be explored in detail!

Study Guide for Maternal-Child Nursing

Reinforce your understanding of basic nursing concepts and skills! Corresponding to the chapters in Fundamental Concepts and Skills for Nursing, 6th Edition, this study guide provides the review and practice you need to master essential LPN/LVN knowledge. Engaging exercises and questions help you learn to apply the nursing process, set priorities, practice critical thinking, make good decisions, and communicate effectively. With this practical review, you will get more out of your textbook and prepare for success on the Next Generation NCLEX-PN® exam. Review Questions for the NCLEX-PN® Examination let you practice for the exam with multiple-choice and alternate item format questions based on real-life situations. Word Attack Skills offer practice in pronouncing difficult terms and phrases, with emphasis on stress and intonation. Clinical Situations use realistic sample practice situations to stimulate critical thinking, clinical judgment, and practical application of nursing concepts. Critical Thinking Activities provide nursing scenarios and questions to help build your problem-solving skills. Developing Clinical Judgment activities help you meet the clinical practice objectives of the corresponding chapter. Communication Exercises let you practice using realistic nurse-patient dialogues, and are especially useful when paired with a partner. Cultural Points summarize issues and ask questions about customs that may differ across the cultures found in patient communities. Grammar Points exercises offer a refresher on common grammatical errors, such as the use of the past tense in taking case histories. Completion exercises boost your vocabulary by offering more opportunities to use key terms. Priority Setting questions ask you to rank tasks in order of importance. Short answer, identification, multiple-choice, and matching questions test and reinforce your knowledge of concepts conveyed in the text. Application of the Nursing Process questions ask you to use critical thinking skills and apply the steps of the nursing process to real-life patient care. Review of structure and function of the human body helps you remember what you learned in previous classes and how it applies to nursing. NEW! Updated exercises reflect content in the new edition of the Fundamental Concepts and Skills for Nursing textbook. NEW! UNIQUE! Next Generation NCLEX Exam-style questions are included in every chapter, reflecting the Clinical Judgment Measurement Model, and include each of the five new approved question types: enhanced hotspot, cloze (drop down), matrix, extended multiple-response, and extended drag-and-drop question types.
