**The Parrot's Theorem** Denis Guedj, 2013-08-20 Mr. Ruche, a Parisian bookseller, receives a bequest from a long lost friend in the Amazon of a vast library of math books, which propels him into a great exploration of the story of mathematics. Meanwhile Max, whose family lives with Mr. Ruche, takes in a voluble parrot who will discuss math with anyone. When Mr. Ruche learns of his friend's mysterious death in a Brazilian rainforest, he decides that with the parrot's help he will use these books to teach Max and his brother and sister the mysteries of Euclid's Elements, Pythagoras's Theorem and the countless other mathematical wonders. But soon it becomes clear that Mr. Ruche has inherited the library for reasons other than enlightenment, and before he knows it the household is racing to prevent the parrot and vital, new theorems from falling into the wrong hands. An immediate bestseller when first published in France, *The Parrot's Theorem* charmingly combines a straightforward history of mathematics and a first-rate murder mystery.

Merry Christmas, Splat Rob Scotton, 2024-12 It's the night before Christmas, and Splat wonders if he's been a good enough cat this year to deserve a really big present. Just to make sure, he offers some last-minute help to his mom. That night Splat stays up hoping to see Santa Claus. But when he misses him, he's sure Christmas is ruined.

1914 Jean Echenoz, 2014-01-07 Five Frenchmen go off to war, two of them leaving behind a certain young woman who longs for their return. But the main character in 1914 is the Great War itself. Jean Echenoz, the multi-award-winning French literary magician whose work has been compared to Joseph Conrad and Lawrence Sterne, has brought that deathtrap back to life, leading us gently from a balmy summer day deep into the insatiable—and still unthinkable—carnage of trench warfare. With the delicacy of a miniaturist and with irony both witty and clear-eyed, the author offers us an intimate epic with the atmosphere of a classic movie: in the panorama of a clear blue sky, a biplane spirals suddenly into the ground; a tardy piece of shrapnel shears the top off a man's head as if it were a soft-boiled egg; we dawdle dreamily in a spring-scented clearing with a lonely shell-shocked soldier strolling innocently to a firing squad ready to shoot him for desertion. But ultimately, the grace notes of humanity in 1914 rise above the terrors of war in this beautifully crafted tale that Echenoz tells with

discretion, precision, and love.

*A Void* Georges Perec,2025-11-18 A mind-bending mysterious comedy from the author of *Life A User's Manual*. *A Void* is a great linguistic adventure and a metaphysical whodunit, chock-full of plots and subplots, of trails in pursuit of trails, all of displays Georges Perec's virtuosity as a verbal magician. It is also an outrageous verbal stunt: a 300-page novel that never once employs the letter E. The year is 1968, and as France is torn apart by social and political anarchy, the noted eccentric and insomniac Anton Vowl goes missing. Ransacking his Paris flat, his best friends scour his diary for clues to his whereabouts. At first glance these pages reveal nothing but Vowl's penchant for word games, especially for lipograms, compositions in which the use of a particular letter is suppressed. But as the friends work out Vowl's verbal puzzles, and as they investigate various leads discovered among the entries, they too disappear, one by one by one, and under the most mysterious circumstances . . . A book that only Georges Perec could have conceived, *The New York Times* called *A Void*, a rollicking story, wildly amusing and easily accessible to all of us who don't mind slipping, sliding and being tripped.

**Logic; Or, The Art of Thinking** Antoine Arnauld,Pierre Nicole,1850

Candide Voltaire, *Candide* by Voltaire is a satirical novella that mocks blind optimism and philosophical rationalism through the misadventures of the naïve protagonist, *Candide*. As he travels the world, encountering disaster and corruption, he gradually rejects the idea that all is for the best in "the best of all possible worlds." The book is a biting critique of organized religion, war, and social injustice.

Things Georges Perec,2002-07-01 *Things: A Story of the Sixties* is the story of a young couple who want to enjoy life, but the only way they know how to do so is through ownership of 'things'. Perec's first novel won the Prix Renaudot and became

the cult book for a generation. In *A Man Asleep*, a young student embarks upon a disturbing and exhaustive pursuit of indifference, following his experience in non-existence with relentless logic.
