Is-26 Guide to Points of Distribution Fema,2010-08-11 Points of Distribution . Points of Distribution are centralized locations where the public picks up life sustaining commodities following a disaster or emergency . Commodities usually include shelf stable food and water What are Points of Distribution or PODs? During a disaster, one method of issuing supplies may not be enough. A Local Emergency Management Agency (LEMA) could use other distribution systems or use all of them at once. All three complement each other and provide expanded distribution coverage. For this Guide, we will focus on Points of Distribution or PODs. PODs can accommodate vehicle traffic (drive-thru), pedestrian traffic (walk thru), and mass transit traffic (bus or rail). Each person or vehicle receives a set amount of supplies. The recommended amount is for each person/vehicle to receive enough for a household of three. The amount of supplies provided will differ depending on the type of transportation used. For instance, more supplies are provided to someone in a car than to a pedestrian who must hand carry items.

Public Assistance Program and Policy Guide Fema,2019-05-06 April 2018 Full COLOR 8 1/2 by 11 inches The Public Assistance Program and Policy Guide provides an overview of the Presidential declaration process, the purpose of the Public Assistance (PA) Program, and the authorities authorizing the assistance that the Federal Emergency Management Agency provides under the PA Program. It provides PA policy language to guide eligibility determinations. Overarching eligibility requirements are presented first and are not reiterated for each topic. It provides a synopsis of the PA Program implementation process beginning with pre-declaration activities and continuing through closeout of the PA Program award. When a State, Territorial, or Indian Tribal Government determines that an incident may exceed State, Territorial, Indian Tribal, and local government capabilities to respond, it requests a joint Preliminary Damage Assessment (PDA) with the Federal Emergency Management Agency (FEMA). Federal, State, Territorial, Indian Tribal, local government, and certain private nonprofit (PNP) organization officials work together to estimate and document the impact and magnitude of the incident. Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, full-size (8 1/2 by 11 inches),
