Downsizing the Federal Government Chris Edwards,2005-11-25 The federal government is running huge budget deficits, spending too much, and heading toward a financial crisis. Federal spending soared under President George W. Bush, and the costs of programs for the elderly are set to balloon in coming years. Hurricane Katrina has made the federal budget situation even more desperate. In *Downsizing the Federal Government* Cato Institute budget expert Chris Edwards provides policymakers with solutions to the growing federal budget mess. Edwards identifies more than 100 federal programs that should be terminated, transferred to the states, or privatized in order to balance the budget and save hundreds of billions of dollars. Edwards proposes a balanced reform package of cuts to entitlements, domestic programs, and excess defense spending. He argues that these cuts would not only eliminate the deficit, but also strengthen the economy, enlarge personal freedom, and leave a positive fiscal legacy for the next generation. *Downsizing the Federal Government* discusses the systematic causes of wasteful spending, and it overflows with examples of federal programs that are obsolete and mismanaged. The book examines the budget process and shows how policymakers act contrary to the interests of average Americans by favoring special interests.

Resolving Residential Mortgage Distress Mr.Jochen R. Andritzky,2014-12-17 In housing crises, high mortgage debt can feed a vicious circle of falling housing prices and declining consumption and incomes, leading to higher mortgage defaults and deeper recessions. In such situations, resolution policies may need to be adapted to help contain negative feedback loops while minimizing overall loan losses and moral hazard. Drawing on recent experiences from Iceland, Ireland, Spain, and the United States, this paper discusses how economic trade-offs affecting mortgage resolution differ in crises. Depending on country circumstances, the economic benefits of temporary forbearance and loan modifications for struggling households could outweigh their costs.

Mortgage Financing William B. Shear,2006-03 The U.S. Dept. of Housing & Urban Dev't. (HUD), through its Fed. Housing Admin. (FHA), provides insurance for private lenders against losses on home mortgages. FHA's largest insurance program is the Mutual Mortgage Insurance Fund, which currently is self-financed & operates at a profit. FHA submitted a re-estimate of \$7 billion for the credit subsidy & interest for the Fund as of the end of FY 2003, reflecting a reduction in estimated profits. Given this substantial re-estimate, this report determines what factors contributed to the \$7 billion re-estimate & the underlying loan performance variables influencing these factors. Also, assesses how the loan performance variables underlying the re-estimate could impact future estimates of new loans. Illus.

Capital Markets, CDFIs, and Organizational Credit Risk Charles Tansey,Michael Swack,Michael Tansey,2010 Can Community Development Financial Institutions (CDFIs) get unlimited amounts of low cost, unsecured, short- and long-term funding from the capital markets based on their organizational credit risk? Can they get pricing, flexibility, and procedural parity with for-profit corporations of equivalent credit risk? One of the key objectives of this book is to explain the reasons why the answer to the two questions above remains no. The other two key objectives are to show the inner workings of what has been done to date to overcome the obstacles so that we don't have to retrace the same steps and recommend additional disciplines that position CDFIs to take advantage of the mechanisms of the capital markets once the markets stabilize.
