How global tourism can be more sustainable | World

Aug 05, 2020 · Tourism made up 10 percent of global GDP in 2019 and was worth almost $9 trillion, making the sector nearly three times larger than agriculture. However, the tourism value chain of suppliers and intermediaries has always been fragmented, with limited coordination among the small and medium-size enterprises (SMEs) that make up a large portion of the sector.

Five consumer trends shaping the next decade of growth in...
Over the next decade, it may add more consumption than any other country, and is expected to generate more than one-quarter of all global consumption growth, according to our baseline scenario. Among the drivers of this growth are seven key consumer segments identified in previous research by the McKinsey Global Institute (MGI).
