**Where Is History Today?** Laura Mulvey, Frank Ankersmit, Daniel Pick, Tomáš Jirsa, Martin Elbel, Jiří Lach, 2015-02-05 History no longer belongs only to historians, but is woven into the fabric and discourse of daily life. This fresh and wide-ranging survey explores how new media and new historiographic approaches are dramatically expanding what we understand by “history” today. Controversy about the aims and limits of historical analysis has raged ever since the rise of postmodern history in the 1970s. But these debates have rarely affected the understanding of history in Central and Eastern Europe. The volume confirms the crucial importance of audiovisual and mass media, from film to television and radio to comics, but does not exclude literary scholars and art historians who are also rethinking their methods, taking note of their new consumers. If history formerly appeared to be a one-way transmission of expertise, it is increasingly a dynamic engagement between researchers and audiences.

**New York Magazine** ,1980-07-28 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

**Unholy Land** Witt Raczka, 2015-11-30 Traveling major highways and secondary roads, walking unpaved paths, the author recites contradictions of the land between the Mediterranean Sea and the Jordan River, the Holy Land. Here, religion uneasily confronts politics and democracy, sublime nature undergoes militarization, and hospitality and empathy mix with brutality, hatred and violence. Everything becomes security: not just borders and relations with the neighbors, but also water and archaeological evidence, demography and voting Arabs. Control of holy sites, perception of illegal immigrants, separate highway networks and built-up hilltops are all viewed through the prism of threat and security. Threats proliferate, be they real or imaginary, spontaneous or politically-driven. Whether in Jerusalem, the “city of the world”, or in small towns, tensions are palpable between Israel’s radical Jews and its Arab residents. Even within the Jewish community itself, increasingly nationalistic, animosities between ultra-Orthodox and more secular inhabitants are on the rise. Christians also feel under attack, as do moderate Palestinians from their Islamized brethren. In the occupied West Bank, Palestinian villagers confront radical settlers, often protected by Israeli soldiers, while in the isolated Gaza, Hamas imposes ever stricter rules upon its people. Not surprisingly, the Holy Land has become aplenty with both mental and physical barriers, with walls, checkpoints, no-go and firing zones. Will rage and fear, sorrow and despair eventually trump hope? Although glimmers of hope exist—new

water technology, Tel Aviv's culture of tolerance, more pressures from the international community—the author remains more pessimistic than ever, as reflected in the book's title.

*New York Time Out Magazine*,1996 Written by a team of resident journalists so that the true flavour of the city can be captured, this guide gives independent, impartial advice to inform and entertain. More than 700 venues are reviewed and all price ranges and tastes are covered.

Puzzling Identities Vincent Descombes, 2016-02-15 As a logical concept, identity refers to one and the same thing. So why, Vincent Descombes asks, do we routinely use “identity” to describe the feelings associated with membership in a number of different communities, as when we speak of our ethnic identity and religious identity? And how can we ascribe the same “identity” to more than one individual in a group? In *Puzzling Identities*, one of the leading figures in French philosophy seeks to bridge the abyss between the logical meaning of identity and the psychological sense of “being oneself.” Bringing together an analytic conception of identity derived from Gottlob Frege with a psychosocial understanding stemming from Erik Erikson, Descombes contrasts a rigorously philosophical notion of identity with ideas of collective identity that have become crucial in contemporary cultural and political discourse. He returns to an argument of ancient Greek philosophy about the impossibility of change for a material individual. Distinguishing between reflexive and expressive views of “being oneself,” he shows the connections between subjective identity and one’s life and achievements. We form profound attachments to the particular communities by which we define ourselves. At the same time, becoming oneself as a modern individual requires a process of disembedding oneself from one’s social milieu. This is how undergoing a crisis of identity while coming of age has become for us a normal stage in human life. *Puzzling Identities* demonstrates why a person has more than one answer to the essential question “Who am I?”
