The SAGE Encyclopedia of Intercultural Competence Janet M. Bennett, 2015-03-23 In 1980, SAGE published Geert Hofstede's *Culture's Consequences*. It opens with a quote from Blaise Pascal: "There are truths on this side of the Pyrenees that are falsehoods on the other." The book became a classic—one of the most cited sources in the Social Science Citation Index—and subsequently appeared in a second edition in 2001. This new SAGE Encyclopedia of Intercultural Competence picks up on themes explored in that book. Cultural competence refers to the set of attitudes, practices, and policies that enables a person or agency to work well with people from differing cultural groups. Other related terms include cultural sensitivity, transcultural skills, diversity competence, and multicultural expertise. What defines a culture? What barriers might block successful communication between individuals or agencies of differing cultures? How can those barriers be understood and navigated to enhance intercultural communication and understanding? These questions and more are explained within the pages of this new reference work. Key Features: 300 to 350 entries organized in A-to-Z fashion in two volumes Signed entries that conclude with Cross-References and Suggestions for Further Readings Thematic "Reader's Guide" in the front matter grouping related entries by broad topic areas Chronology that provides a historical perspective of the development of cultural competence as a discrete field of study Resources appendix and a comprehensive Index The SAGE Encyclopedia of Intercultural Competence is an authoritative and rigorous source on intercultural competence and

related issues, making it a must-have reference for all academic libraries.

Manual for Developing Intercultural Competencies (Open Access) Darla K. Deardorff, 2019-08-16 This book presents a structured yet flexible methodology for developing intercultural competence in a variety of contexts, both formal and informal. Piloted around the world by UNESCO, this methodology has proven to be effective in a range of different contexts and focused on a variety of different issues. It, therefore can be considered an important resource for anyone concerned with effectively managing the growing cultural diversity within our societies to ensure inclusive and sustainable development. Intercultural competence refers to the skills, attitudes, and behaviours needed to improve interactions across difference, whether within a society (differences due to age, gender, religion, socio-economic status, political affiliation, ethnicity, and so on) or across borders. The book serves as a tool to develop those competences, presenting an innovative adaptation of what could be considered an ancient tradition of storytelling found in many cultures. Through engaging in the methodology, participants develop key elements of intercultural competence, including greater self-awareness, openness, respect, reflexivity, empathy, increased awareness of others, and in the end, greater cultural humility. This book will be of great interest to intercultural trainers, policy makers, development practitioners, educators, community organizers, civil society leaders, university lecturers and students – all who are interested in developing intercultural competence as a means to understand and appreciate difference, develop relationships with those across difference, engage in intercultural dialogue, and bridge societal divides.

Intercultural Communication James W. Neuliep, 2016-12-27 In the fully updated Seventh Edition of *Intercultural Communication: A Contextual Approach*, bestselling author James W. Neuliep provides a clear contextual model (visually depicted by a series of concentric circles) for examining communication within cultural, microcultural, environmental, sociorelational, and perceptual contexts. Each chapter focuses on one context and explores the combination of factors within that context, including setting, situation, and circumstances. Highlighting values, ethnicity, physical geography, and attitudes, the book examines means of interaction, including body language, eye contact, and exchange of words, as well as the stages of relationships, cross-cultural management, intercultural conflict, and culture shock.

In the first part, contributors analyze the conceptual decisions made in intercultural communication competence research by examining decisions regarding conceptualization, operationalization, research design and sampling. The second part presents four different theoretical orientations while illustrating how each person's theoretical bias directs the focus of research. Lastly, both quantitative and qualitative research approaches used in studying intercultural communication competence are examined.

The political and cultural challenges faced by minorities in divided societies raise the specific and important need to study leadership from a new perspective, based on the leaders' role in their society and community, and on their role in leveraging their school toward integration in their society while staying aligned with environmental changes. The authors present a new theoretical framework of leadership for society with practical implications for effective leadership in complex societies. The book also develops our understanding of minority education in the reality of conflicts between the state and the minority's identity. The authors believe that school leaders' participation in the extended community will improve and affect the development of schools and enable leaders to negotiate cultural, social and political complexities.
