Serious Games and Edutainment Applications Minhua Ma,Andreas Oikonomou,2017-03-03 With the continued application of gaming for training and education, which has seen exponential growth over the past two decades, this book offers an insightful introduction to the current developments and applications of game technologies within educational settings, with cutting-edge academic research and industry insights, providing a greater understanding into current and future developments and advances within this field. Following on from the success of the first volume in 2011, researchers from

around the world presents up-to-date research on a broad range of new and emerging topics such as serious games and emotion, games for music education and games for medical training, to gamification, bespoke serious games, and adaptation of commercial off-the shelf games for education and narrative design, giving readers a thorough understanding of the advances and current issues facing developers and designers regarding games for training and education. This second volume of Serious Games and Edutainment Applications offers further insights for researchers, designers and educators who are interested in using serious games for training and educational purposes, and gives game developers with detailed information on current topics and developments within this growing area.

Mixed Reality and Gamification for Cultural Heritage Marinos Ioannides, Nadia Magnenat-Thalmann, George Papagiannakis, 2017-04-26 This volume on virtual and augmented reality (VR/AR) and gamification for cultural heritage offers an insightful introduction to the theories, development, recent applications and trends of the enabling technologies for mixed reality and gamified interaction in cultural heritage and creative industries in general. It has two main goals: serving as an introductory textbook to train beginning and experienced researchers in the field of interactive digital cultural heritage, and offering a novel platform for researchers in and across the culturally-related disciplines. To this end, it is divided into two sections following a pedagogical model developed by the focus group of the first EU Marie S. Curie Fellowship Initial Training Network on Digital Cultural Heritage (ITN-DCH): Section I describes recent advances in mixed reality enabling technologies, while section II presents the latest findings on interaction with 3D tangible and intangible digital cultural heritage. The sections include selected contributions from some of the most respected scholars, researchers and professionals in the fields of VR/AR, gamification, and digital heritage. This book is intended for all heritage professionals, researchers, lecturers and students who wish to explore the latest mixed reality and gamification technologies in the context of cultural heritage and creative industries. It pursues a pedagogic approach based on trainings, conferences, workshops and summer schools that the ITN-DCH fellows have been following in order to learn how to design next-generation virtual heritage applications, systems and services.

The Seven Sisters Reggie Michael Sultan,2012 Aboriginal artist Reggie Sultan spent part of his early childhood catching goannas and rabbits and learning about bush food from his mother, uncle and other relatives who belonged to the Kaititja tribe near Barrow Creek in Central Australia. The Seven Sisters represent Pleiades, a small star cluster seen within the Milky Way. Various Aboriginal legends describe the sisters visiting the earth and interacting with its inhabitants, and Reggie Sultan gives an illustrated account of this.

The View From the Center of the Universe Joel R. Primack,Nancy Ellen Abrams,2007-08-07 In this strikingly original book, a world-renowned cosmologist and an innovative writer of the history and philosophy of science uncover an astonishing truth: Humans actually are central to the universe. What does this mean for our culture and our personal lives? The answer is revolutionary: a science-based cosmology that allows us to understand the universe as a whole and our extraordinary place in it.

3-DIY Ray Zone,2013-05-02 A must-have read for anyone looking to take their independently-produced film or video into the 3rd dimension. The text features technical, practical, and inspirational insight from the visionaries who've been producing 3D film and video for decades, not just in the recent past. They offer low-cost techniques and tricks they've been

implementing themselves for years. A variety of styles are discussed, from full CG to time lapse - even a film made during a freefall skydive jump! The filmmakers discuss * Options for on-set playback * Preparing for final playback in various formats * Adapting existing technology to your needs * Post production software choices * Working with computer graphics in 3D This book includes 3D glasses and a companion YouTube channel featuring the work of the filmmakers featured in the book (which you can view in 3D with the glasses), as well as the opportunity for you to upload your own videos for critique and feedback from the author and others. 3D glasses are not included in the purchase of the e-book of 3-DIY. If you have purchased the e-book, and would like a pair of 3D glasses, please contact the publisher at Dennis.McGonagle@taylorandfrancis.com
