

Creta Veneziana Istituto Veneto E La Missione Cretese Di Giuseppe Gerola Collezione Fotografica 1900 1902

Patricia Fortini Brown

Creta veneziana Spiridione Alessandro Curuni, Lucilla Donati, 1988

Venetian Renaissance Fortifications in the Mediterranean Dragoş Cosmescu, 2015-12-23 The Renaissance was a revolution of ideas, arts and sciences alike, with Italy at its center. Venice was among the first states to embrace new concepts in fortification, which would dominate military architecture for centuries. In the age of large galley fleets and an expanding Ottoman Empire, the mighty defenses of the Republic of Venice protected faraway territories in the Mediterranean, and some of the largest and best preserved Renaissance fortifications are found on the former Venetian islands. This book illustrates in detail the impressive defenses of Cyprus, Crete and Corfu, their design and their war record. Walled towns and fortresses were constructed to the latest standards of military technology, with walls capable of withstanding the largest armies and the longest sieges, including the longest in history--22 years.

[The Aerial Atlas of Ancient Crete](#) J. Wilson Myers, Eleanor Emlen Myers, Gerald Cadogan, 1992 This marvelous and uniquely comprehensive book sets a new, high standard of excellence in the study of Greek archaeology.--Ronald S. Stroud, University of California, Berkeley

Venice & Antiquity Patricia Fortini Brown, 1996-01-01 Inscriptions, medals, and travelers' accounts, on more learned humanist and antiquarian writings, and, most importantly, on the art of the period, Brown explores Venice's evolving sense of the past. She begins with the late middle ages, when Venice sought to invent a dignified civic past by means of object, image, and text. Moving on to the fourteenth and fifteenth centuries, she discusses the collecting and recording of antiquities and the incorporation of Roman forms.

Culture and Society in Crete Liana Giannakopoulou, E. Kostas Skordyles, 2018-06-11 Crete has always attracted the interest of scholars in modern times not only because of the archaeological discoveries of Sir Arthur Evans, but also because of its rich history and the particular cultural traits and traditions resulting from the fact that the island has been at the centre of geographical, cultural and religious crossroads. The fifteen papers included in this volume explore original aspects of the Cretan cultural and historical tradition, give original insights into already established fields and underline from the vantage

point of their own particular discipline its distinctive character and impact. As a result of such a thematic variety, this volume will be of interest not only to scholars and students of modern Greek studies, but also Renaissance Studies, comparative literature, cultural and social history and anthropology, and travel literature, as well as historical linguistics and dialectology.

A Companion to Medieval Art Conrad Rudolph, 2019-02-08 A fully updated and comprehensive companion to Romanesque and Gothic art history This definitive reference brings together cutting-edge scholarship devoted to the Romanesque and Gothic traditions in Northern Europe and provides a clear analytical survey of what is happening in this major area of Western art history. The volume comprises original theoretical, historical, and historiographic essays written by renowned and emergent scholars who discuss the vibrancy of medieval art from both thematic and sub-disciplinary perspectives. Part of the Blackwell Companions to Art History, *A Companion to Medieval Art, Second Edition* features an international and ambitious range of contributions covering reception, formalism, Gregory the Great, pilgrimage art, gender, patronage, marginalized images, the concept of spolia, manuscript illumination, stained glass, Cistercian architecture, art of the crusader states, and more. Newly revised edition of a highly successful companion, including 11 new articles Comprehensive coverage ranging from vision, materiality, and the artist through to architecture, sculpture, and painting Contains full-color illustrations throughout, plus notes on the book's many distinguished contributors *A Companion to Medieval Art: Romanesque and Gothic in Northern Europe, Second Edition* is an exciting and varied study that provides essential reading for students and teachers of Medieval art.

Encyclopedia of Greece and the Hellenic Tradition Graham Speake, 2021-01-31 Hellenism is the living culture of the Greek-speaking peoples and has a continuing history of more than 3,500 years. The *Encyclopedia of Greece and the Hellenic Tradition* contains approximately 900 entries devoted to people, places, periods, events, and themes, examining every aspect of that culture from the Bronze Age to the present day. The focus throughout is on the Greeks themselves, and the continuities within their own cultural tradition. Language and religion are perhaps the most obvious vehicles of continuity; but there have been many others--law, taxation, gardens, music, magic, education, shipping, and countless other elements have all played their part in maintaining this unique culture. Today, Greek arts have blossomed again; Greece has taken its place in the European Union; Greeks control a substantial proportion of the world's merchant marine; and Greek communities in the United States, Australia, and South Africa have carried the Hellenic tradition throughout the world. This is the first reference work to embrace all aspects of that tradition in every period of its existence.

Uncommon Dominion Sally McKee, 2010-11-24 From 1211 until its loss to the Ottomans in 1669, the Greek island we know as Crete was the Venetian colony of Candia. Ruled by a paid civil service fully accountable to the Venetian Senate, Candia was distinct from nearly every other colony of the medieval period for the unprecedented degree to which the colonial power was involved in its governance. Yet, for Sally McKee, the importance of the Cretan colony only begins with the

anomalous manner of the Venetian state's rule. *Uncommon Dominion* tells the story of Venetian Crete, the home of two recognizably distinct ethnic communities, the Latins and the Greeks. The application of Venetian law to the colony made it possible for the colonial power to create and maintain a fiction of ethnic distinctness. The Greeks were subordinate to the Latins economically, politically, and juridically, yet within a century of Venetian colonization, the ethnic differences between Latin and Greek Cretans in daily material life were significantly blurred. Members of the groups intermarried, many of them learned each other's language, and some even chose to worship by the rites of the other's church. Holding up ample evidence of acculturation and miscegenation by the colony's inhabitants, McKee uncovers the colonial forces that promoted the persistence of ethnic labeling despite the lack of any clear demarcation between the two predominant communities. As McKee argues, the concept of ethnic identity was largely determined by gender, religion, and social status, especially by the Latin and Greek elites in their complex and frequently antagonistic social relationships. Drawing expertly from notarial and court records, as well as legislative and literary sources, *Uncommon Dominion* offers a unique study of ethnicity in the medieval and early modern periods. Students and scholars in medieval, colonial, and postcolonial studies will find much of use in studying this remarkable colonial experiment.

Trade, Commodities and Shipping in the Medieval Mediterranean David Jacoby, 2024-10-28 This fourth collection by David Jacoby focuses on Western economic expansion the Eastern Mediterranean during the 11th-15th centuries. He is concerned to emphasize the interconnections linking the West, Byzantium and the Levant, and to examine normative sources for commercial activity (charters, etc.) against the background of actual practice, such as reflected in notarial documents. The articles deal with the evolution of urban centres, the trade in raw materials, and at the same time questions of technology transfer and the mobility of merchants and craftsmen. Particular attention is given to the silk trade: the author argues that demographic expansion in the Byzantine world, as in the West, stimulated economic growth, and demand for silk led to the emergence of a market-driven industry in Byzantium.

A Companion to Latin Greece, 2014-11-27 The conquest of the Byzantine Empire by the armies of the Fourth Crusade resulted in the foundation of several Latin political entities in the lands of Greece. *The Companion to Latin Greece* offers thematic overviews of the history of the mixed societies that emerged as a result of the conquest. With dedicated chapters on the art, literature, architecture, numismatics, economy, social and religious organisation and the crusading involvement of these Latin states, the volume offers an introduction to the study of Latin Greece and a sampler of the directions in which the field of research is moving. Contributors are: Nikolaos Chrissis, Charalambos Gasparis, Anastasia Papadia-Lala, Nicholas Coureas, David Jaccoby, Julian Baker, Gill Page, Maria Georgopoulou and Sophia Kalopissi-Verti.

Venezia medievale nella Modernità Daniela Rando, 2015-04-30T00:00:00+02:00 In che modo la fase storica iniziata ai primi dell'Ottocento e conclusasi dopo la seconda guerra mondiale concepì, immaginò e "costruì" il Medioevo veneziano? Fu

Venezia stessa - la più antimoderna fra le città italiane, dalla forte carica metaforica - a sollecitare uno specifico immaginario storico, cui parteciparono anche medievisti, studiosi e critici della cultura. Questa l'ipotesi di partenza, formulata attraverso un itinerario che intreccia il nuovo interesse per Bisanzio, percepibile a partire dai primi decenni dell'Ottocento e oscillante fra eredità classica e fascino orientale, con la categoria interpretativa del "Gotico", decisiva nel passaggio storico fra XIX e XX secolo, per poi valutare la considerazione della Venezia medievale nel dibattito su origine e natura del capitalismo, e infine come paradigma del colonialismo e dell'imperialismo. Pur offrendo dati puntuali su biografia e formazione intellettuale dei singoli autori presi in considerazione, il volume si allontana dai canoni della storia della storiografia per proporre riflessioni interdisciplinari in un più ampio contesto di storia della cultura, con attenzione critica a una scrittura "scientifica" che, in bilico fra storia e mito, contribuì alla costruzione narrativa della realtà storica.

Mechanisms of Exchange ,2013-04-15 Featuring eight innovative studies by prominent scholars of medieval art and architecture, this special issue of Medieval Encounters examines the specific means by which art and architectural forms, techniques, and ideas were transmitted throughout the medieval world (ca. 1000-1500). While focusing on the Mediterranean region, the collection also includes essays that expand this geographic zone into a cultural and artistic one by demonstrating contact with near and distant neighbors, thereby allowing an expanded understanding of the interconnectedness of the medieval world. The studies are united by a focus on the specific mechanisms that enabled artistic and architectural interaction, as well as the individuals who facilitated these transmissions. Authors also consider the effects and collaboration of portable and monumental arts in the creation of intercultural artistic traditions. Contributors are: Justine Andrews, Maria Georgopoulou, Ludovico Geymonat, Heather E. Grossman, Eva Hoffman, Melanie Michailidis, Renata Holod, Scott Redford and Alicia Walker.
