Reflection is required on who these leaders are, what they should be able to do, and how they should be selected and held accountable to achieve results. This study establishes a new assessment framework for senior civil service (SCS) systems, based on the 2019 OECD Recommendation on Public Service Leadership and Capability.

Making the Right Connections Susan Tsui Grundmann,2011-05 Some abilities needed for Federal jobs may be inherently more difficult to learn than others. Research on mental abilities distinguishes among those that can be developed through training, those that are unresponsive to training, and those that are moderately responsive. This dimension is known as trainability. This report contrasts employee perceptions of the trainability of job-relevant abilities with research findings about the actual trainability of these abilities. The goal is to help agencies use training resources to enhance individual and organizational performance by highlighting abilities for which training may be less beneficial than other organizational improvement strategies. Political Management Jennifer Lees-Marshment, 2020-06-01 *Political Management* lays out the core tools to manage government, campaigns and parties. The first book to combine management concepts with politics and government, it provides core theories for what Political Planning, Political HR, Political Organising, Political Leadership and Political Reviewing involve, illustrated with high level political practitioner interviews, examples and political documents. The text presents the 4 Ds of Political Management - Deliberating, Designing, Doing and Dancing - to convey that Political Management is more of a dance than a march. Even presidents and prime ministers do not have enough formal authority to control the myriad of practitioners, players, processes and policies involved in 21st century governance. In this book, the author demonstrates why political practitioners in campaign teams, parties, government departments and political offices need political management tools to utilise the resources they have available and overcome multiple obstacles that practical politics presents. By offering a clear sense of what political management involves and providing the theoretical frameworks to be used in empirical research, this book will stimulate significant future study. It will be invaluable to practitioners, scholars and students in politics, government, policy, leadership, management, public administration, and political management.

COMPETENCY-BASED HUMAN RESOURCE MANAGEMENT SRINIVAS R. KANDULA, 2013-01-11 Competency-based HRM is a methodology adopted by various organizations to assess the current capacity of their resources based on competencies, against the capacity needed to achieve the vision, mission and business goals of the organization. This book comprehensively dwells on all the aspects of competency-based Human Resource Management, and its relevance in various industry verticals. The book has been organized into five chapters—each focusing on the tools and techniques to judge core competencies. Benchmarking competency models and assessment tools are also dealt with in detail. Freedom's Forge Arthur Herman, 2013-07-02 NEW YORK TIMES BESTSELLER • SELECTED BY THE ECONOMIST AS ONE OF THE BEST BOOKS OF THE YEAR “A rambunctious book that is itself alive with the animal spirits of the marketplace.”—The Wall Street Journal *Freedom's Forge* reveals how two extraordinary American businessmen—General Motors automobile magnate William “Big Bill” Knudsen and shipbuilder Henry J. Kaiser—helped corral, cajole, and inspire

business leaders across the country to mobilize the “arsenal of democracy” that propelled the Allies to victory in World War II. Drafting top talent from companies like Chrysler, Republic Steel, Boeing, Lockheed, GE, and Frigidaire, Knudsen and Kaiser turned auto plants into aircraft factories and civilian assembly lines into fountains of munitions. In four short years they transformed America’s army from a hollow shell into a truly global force, laying the foundations for the country’s rise as an economic as well as military superpower. Freedom’s Forge vividly re-creates American industry’s finest hour, when the nation’s business elites put aside their pursuit of profits and set about saving the world. Praise for Freedom’s Forge “A rarely told industrial saga, rich with particulars of the growing pains and eventual triumphs of American industry . . . Arthur Herman has set out to right an injustice: the loss, down history’s memory hole, of the epic achievements of American business in helping the United States and its allies win World War II.”—The New York Times Book Review “Magnificent . . . It’s not often that a historian comes up with a fresh approach to an absolutely critical element of the Allied victory in World War II, but Pulitzer finalist Herman . . . has done just that.”—Kirkus Reviews (starred review) “A compulsively readable tribute to ‘the miracle of mass production.’”—Publishers Weekly “The production statistics cited by Mr. Herman . . . astound.”—The Economist “[A] fantastic book.”—Forbes “Freedom’s Forge is the story of how the ingenuity and energy of the American private sector was turned loose to equip the finest military force on the face of the earth. In an era of gathering threats and shrinking defense budgets, it is a timely lesson told by one of the great historians of our time.”—Donald Rumsfeld

Drive Daniel H. Pink,2011-04-05 The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing* Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.
