Golden Gulag Ruth Wilson Gilmore, 2007-01-08 Since 1980, the number of people in U.S. prisons has increased more than 450%. Despite a crime rate that has been falling steadily for decades, California has led the way in this explosion, with what a state analyst called the biggest prison building project in the history of the world. *Golden Gulag* provides the first detailed explanation for that buildup by looking at how political and economic forces, ranging from global to local, conjoined to produce the prison boom. In an informed and impassioned account, Ruth Wilson Gilmore examines this issue through statewide, rural, and urban perspectives to explain how the expansion developed from surpluses of finance capital, labor, land, and state capacity. Detailing crises that hit California's economy with particular ferocity, she argues that defeats of radical struggles, weakening of labor, and shifting patterns of capital investment have been key conditions for prison growth. The results—a vast and expensive prison system, a huge number of incarcerated young people of color, and the increase in punitive justice such as the three strikes law—pose profound and troubling questions for the future of California, the United States, and the world. *Golden Gulag* provides a rich context for this complex dilemma, and at the same time challenges many cherished assumptions about who benefits and who suffers from the state's commitment to prison expansion.

Living Downtown Paul Groth, 1999-01-01 From the palace hotels of the elite to cheap lodging houses, residential hotels have been an element of American urban life for nearly two hundred years. Since 1870, however, they have been the target of an official war led by people whose concept of home does not include the hotel. Do these residences constitute an essential housing resource, or are they, as charged, a public nuisance? *Living Downtown*, the first comprehensive social and cultural history of life in American residential hotels, adds a much-needed historical perspective to this ongoing debate. Creatively combining evidence from biographies, buildings and urban neighborhoods, workplace records, and housing policies, Paul Groth provides a definitive analysis of life in four price-differentiated types of downtown residence. He demonstrates that these hotels have played a valuable socioeconomic role as home to both long-term residents and temporary laborers. Also, the convenience of hotels has made them the residence of choice for a surprising number of Americans, from hobo author Boxcar Bertha to Calvin Coolidge. Groth examines the social and cultural objections to hotel households and the increasing efforts to eliminate them, which have led to the seemingly irrational destruction of millions of such housing units since 1960. He argues convincingly that these efforts have been a leading contributor to urban homelessness. This highly original and timely work aims to expand the concept of the American home and to recast accepted notions about the relationships among urban life, architecture, and the public management of residential environments.

When he retired as director 32 years later, the Press had been transformed into one of the largest, most distinguished university presses in the country, publishing more than 150 books annually in fields ranging from ancient history to contemporary film criticism, by notable authors from all over the world. The Chesapeake House Cary Carson, Carl R. Lounsbury, 2013-03-25 For more than thirty years, the architectural research department at Colonial Williamsburg has engaged in comprehensive study of early buildings, landscapes, and social history in the Chesapeake region. Its painstaking work has transformed our understanding of building practices in the colonial and early national periods and thereby greatly enriched the experience of visiting historic sites. In this beautifully illustrated volume, a team of historians, curators, and conservators draw on their far-reaching knowledge of historic structures in Virginia and Maryland to illuminate the formation, development, and spread of one of the hallmark building traditions in American architecture. The essays describe how building design, hardware, wall coverings, furniture, and even paint colors telegraphed social signals about the status of builders and owners and choreographed social interactions among everyone who lived or worked in gentry houses, modest farmsteads, and slave quarters. The analyses of materials, finishes, and carpentry work will fascinate old-house buffs, preservationists, and historians alike. The lavish color photography is a delight to behold, and the detailed catalogues of architectural elements provide a reliable guide to the form, style, and chronology of the region's distinctive historic architecture.

Warfare in the American Homeland Joy James, 2007-07-20 The United States has more than two million people locked away in federal, state, and local prisons. Although most of the U.S. population is non-Hispanic and white, the vast majority of the incarcerated—and policed—is not. In this compelling collection, scholars, activists, and current and former prisoners examine the sensibilities that enable a penal democracy to thrive. Some pieces are new to this volume; others are classic critiques of U.S. state power. Through biography, diary entries, and criticism, the contributors collectively assert that the United States wages war against enemies abroad and against its own people at home. Contributors consider the interning or

policing of citizens of color, the activism of radicals, structural racism, destruction and death in New Orleans following Hurricane Katrina, and the FBI Counterintelligence Program designed to quash domestic dissent. Among the first-person accounts are an interview with Dhoruba Bin Wahad, a Black Panther and former political prisoner; a portrayal of life in prison by a Plowshares nun jailed for her antinuclear and antiwar activism; a discussion of the Puerto Rican Independence Movement by one of its members, now serving a seventy-year prison sentence for sedition; and an excerpt from a 1970 letter by the Black Panther George Jackson chronicling the abuses of inmates in California's Soledad Prison. Warfare in the American Homeland also includes the first English translation of an excerpt from a pamphlet by Michel Foucault and others. They argue that the 1971 shooting of George Jackson by prison guards was a murder premeditated in response to human-rights and justice organizing by black and brown prisoners and their supporters. Contributors. Hishaam Aidi, Dhoruba Bin Wahad (Richard Moore), Marilyn Buck, Marshall Eddie Conway, Susie Day, Daniel Defert, Madeleine Dwertman, Michel Foucault, Carol Gilbert, Sirène Harb, Rose Heyer, George Jackson, Joy James, Manning Marable, William F.
