2.1. Nomenclature. TMS can be applied one stimulus at a time, single-pulse TMS, in pairs of stimuli separated by a variable interval, paired-pulse TMS, or in trains, repetitive TMS. Single-pulse TMS can be used, for example, for mapping motor cortical outputs, studying central motor conduction time, and studying causal chronometry in brain-behavior relations.

Dec 16, 2021 · Review the key financial statements within the context of the relevant accounting standards. In examining balance sheet accounts, issues such as recognition, valuation and classification are keys to proper evaluation. The main question should be whether this balance sheet is a complete representation of the firm's economic position.
